## OBJECTIVE

---

Skilled Software Developer with 2.5 years of experience, seeking a full-time role in Full-Stack or Front-end Development. Proficient in React, Node, Express, MongoDB, Java, Spring-Boot and Python, among other software, with a proven track record of crafting high-performance, user-centric applications.

## SKILLS

---

Technical Skills	Java, Spring-Boot, Python, Node, Express, SQL, MongoDB, Docker, React, Typescript, Git
Soft Skills	Agile Methodologies, Problem Solving, Effective Communication, Adaptability, Teamwork
Additional Skills	UI/UX Knowledge, Data Visualisation, AI & Machine Learning

## EXPERIENCE

---

**Fullstack Developer** Oct 2023 - present  
[Root En Route](#) *Hyderabad, IN*

**Tech Stack:** Java, Spring-Boot, React, Typescript, Tailwind, Zustand, React-Query.

- Contributed to developing an E-Commerce platform using React, Zustand and React-Query, **from concept to deployment**.
- Designed a dynamic recipe creation system that increased community participation and purchases by **28%**.
- Debugged REST APIs and **resolved errors** and **edge cases** in the backend, making it more robust and secure.

**Fullstack Freelancer** Aug 2023 - Present  
[Histare Group](#) *Remote, IN*

**Tech Stack:** Node, Express, React, React Native, Tailwind, React-Query.

- Designed and developed Histare's website, **crafting an intuitive UI/UX** for a seamless user experience.
- Built an **internal management system** to streamline employee, vendor and customer operations, improving efficiency.
- Developed a **QR code-based** event management platform that enables **unique ticket generation** and secure verification for attendees.

**Frontend Developer** Sept 2022 - Oct 2023  
[56 Secure](#) *Bangalore, IN*

**Tech Stack:** React, Tailwind, React-Query.

- Co-engineered a Guard Management System with React, streamlining operations and increasing hiring efficiency of guards from an average of **4 per day** to **10 per day**.
- Developed an advanced geofence tool utilizing the Google Maps API, enabling real-time guard monitoring **every 5 seconds** and **automatic updates** for geofence entry and exit by guards.
- Worked with the design team to make the application more aesthetically pleasing and intuitive to the user.

## PROJECTS

---

**Personal Website:** Developed a **dynamic, node-based** personal website featuring a **drag-and-drop** flow editor, enabling users to connect nodes and display relevant information in real-time. Engineered an intuitive user interface / user experience while implementing complex workflows, including **custom node interactions**, **state management**, and **real-time data rendering**. ([Try it here](#))

**ProctorPro:** Programmed a user-friendly **question paper designer**. It supports diverse question types like MCQs, fill-ins, categorization, and comprehension with nested questions. With a **shareable URL**, tests can be easily distributed, and the system automatically scores the responses. ([Try it here](#))

**Twitter Clone:** Developed a Twitter clone supporting tweeting, liking, replying, retweeting, and viewing user profiles. Implemented **JWT authentication**, **bcrypt encryption**, and secure **image upload middleware**. Improved UX with **real-time user handle validation** during sign-up and optimized database performance using Mongoose. ([Try it here](#))

## CERTIFICATIONS

---

- Completed the **Fullstack Development Course** from [Internshala](#) in conjunction with [NSDC](#) and graduated with an **aggregate score of 98%**. [Certificate Link](#).

## EDUCATION

---

<b>Bachelor of Commerce</b> , Indira Gandhi National University	2019-2022
<b>Bachelor of Biochemistry and BioTechnology</b> , IIT Delhi - Disc. due to health issues	2014-2019
